SUMMER BEDDING + BATH

BEDDING *and* BATH

A cozy coverlet. A soft and silky sham. A plush towel. These are the things we wrap ourselves in, lay our heads on and curl up under night after night and day after day. It seems obvious, but I've always found that it's these simple and often overlooked pieces that bring joy and luxury to our everyday lives. Think of a fluffy new set of towels or an exuberantly patterned duvet not only as investments in your home but in yourself and your wellbeing.

So, whether you're looking to spruce up your own sanctuary, the colorful guestroom down the hall or your college freshman's new dorm room, I hope the gorgeous selection of bedding and bath products flowing across these pages inspire you to indulge in the sumptuous, the wild, and the whimsical.
